## Company Background

PH Borneo Sdn Bhd is a Sarawakian trading and services provider, supporting the major onshore and offshore heavy industries including oil and gas, petrochemical, power sector, shipyards, palm oil, etc., across Borneo, West Malaysia and beyond. PH Borneo is committed to delivering products and services in a timely, professional and cost-effective manner. This includes a wide range of products and specialized project support services to add value to our customers' requirements.

PH Borneo is registered for a broad spectrum of Petronas SWEC codes to support Petronas, PETROS, Shell, Carigali and all the major customers in the region. We have developed an impressive network of global strategic partners and suppliers / manufacturers to bring the latest technologies and services to the local markets.

### Vision

- To become the 'First Choice' supplier of quality products and services to meet the growing needs of the local industries.

### Mission

- To find the best solutions for our customers.
- To supply products and services as cost-effectively as possible.
- To have fully satisfied customers who put PH Borneo Sdn Bhd as the top of their memory list for timely services.
- To develop our team to be the best in class and to provide them with an enjoyable and harmonious working environment.
